Figure A.1. Final study sample selected for analysis, Breast Cancer in Young Women Survey, 2016–2017

Source: Data were collected from October 2016 through June 2017 under Office of Management and Budget (OMB) approval No. 0920–1123 received for the Breast Cancer in Young Women Survey.

Figure A.2. Respondents who reported financial decline because of breast cancer by age at diagnosis and treatment status, 2016–2017

Notes: Overall, 54.2 percent of respondents reported financial decline. This metric includes those who reported “some,” “quite a bit,” and “very much” financial decline because of breast cancer. Those who reported “none,” “not much,” or “little” were coded as zero. None of the differences are statistically significant at the 5 percent level.
